"And without question, the most important recognition we receive occurs when our customers vote with their checkbook. For Jeep to be recognized as the brand with the largest increase in customer loyalty is fantastic. My thanks go out to all of our Jeep customers for their business."

Jeep Wrangler

Jeep Wrangler – the most capable and recognized vehicle in the world – becomes even more capable both on- and off-road for 2012, courtesy of an all-new, more fuel efficient and more powerful 3.6-liter V-6 engine, and a new five-speed automatic transmission – both of which it shares with the award-winning Jeep Grand Cherokee.

Chrysler Group's 3.6-liter Pentastar V-6 engine – winner of the prestigious Ward's 10 Best Engines award – delivers 285 horsepower (209 kW) and 260 (353 N•m) lb.-ft. of torque, while delivering up to 21 miles per gallon highway in

the 2012 Jeep Wrangler. The improvement, when compared to the previous 3.8-liter V-6 engine, is 40 percent in horsepower and 10 percent in torque.

Jeep continues to refine the successful Wrangler formula by combining legendary, benchmark capability with an interior that delivers rich styling with significantly upgraded touch surfaces, occupant comfort and versatility, and a premium appearance courtesy of a body color hard top for the popular Sahara and Rubicon models.

Jeep Wrangler recently received two significant awards from the industry's leading off-road enthusiast publication: Four Wheeler of the Year from Four Wheeler magazine, and 4x4 of the Year from Petersen's 4-Wheel & Off-Road magazine.

2012 Jeep Grand Cherokee

The all-new-for-2011 Jeep Grand Cherokee captured more than 30 awards, making it the most-awarded SUV ever.
