2020 Ram ProMaster 1500, 2500 & 3500 Fact Sheet

August 31, 2019, Auburn Hills, Mich. - The ProMaster is Ram Commercial's entry for the Class 2 full-size van segment. The 2020 Ram ProMaster full-size van benefits from an exclusive front-wheel-drive system, reducing weight and complexity by locating all components beneath the cab. This keeps the cargo-load-floor height and step-in height very low, which is a great ergonomic feature for the person getting in and out of the van all day. It also helps in low-traction surfaces, like snow, since there is always weight on the front wheels to provide traction. The result is a purpose-built, highly customizable van designed to exceed the demands of commercial customers and upfitters.
