FCA Canada: 2020 Ram ProMaster 1500, 2500 & 3500 Fact Sheet

August 31, 2019, Windsor, Ontario - The ProMaster is Ram Commercial's entry for the Class 2 full-size van segment. The 2020 Ram ProMaster full-size van benefits from an exclusive front-wheel-drive system, reducing weight and complexity by locating all components beneath the cab. This keeps the cargo-load-floor height and step-in height very low, which is a great ergonomic feature for the person getting in and out of the van all day. It also helps in low-traction surfaces, like snow, since there is always weight on the front wheels to provide traction. The result is a purpose-built, highly customizable van designed to exceed the demands of commercial customers and upfitters.

Highlights:

- ProMaster best-in-class features:
 - Standard V-6 horsepower
 - Turning diameter (118-inch wheelbase)
 - Standard interior cargo height
 - Load-floor height
 - Cargo width between wheel wells
 - Maximum cargo width
- Payload:
 - 2020 Ram ProMaster features the 3.6-litre Pentastar V-6 engine paired with a proven six-speed automatic transmission
 - Class-exclusive front-wheel-drive system
- The Ram design team started with a functional exterior and interior, adding distinct Ram styling while adapting the full-size van for North America
