Canada: Jeep® Announces Starting Prices for the All-new 2021 Grand Cherokee L Lineup

- Starting prices now available for the all-new 2021 Jeep® Grand Cherokee L lineup, which includes Laredo, Limited, Overland and Summit models
- The 2021 Jeep Grand Cherokee L, the first ever three-row Grand Cherokee, starts at a Canadian manufacturer's suggested retail price (MSRP) of \$52,495 (all prices exclude \$1,895 destination)
- Laredo model has a starting Canadian MSRP of \$52,495 and features a host of new standard safety features, including adaptive cruise control and Blind-spot Monitoring, all-new LED exterior lighting, leather-wrapped steering wheel with audio controls, heated front seats and steering wheel, new "tip and slide" second-row seats, an impressive 26 centimetre (10.25-inch) frameless digital driver cluster with customizable menu options and the new Uconnect 5—the most advanced Uconnect system ever
- Limited model has a starting Canadian MSRP of \$59,995 and adds premium features, including Capri leather seats, standard heated seats in the first two rows, remote start and a new power liftgate with adjustable height
- Overland model has a starting Canadian MSRP of \$68,995, the Jeep Quadra-Trac II system and features include a unique Overland appearance, Nappa leather seats and door panels, standard ventilated front seats, Uconnect 5 with premium navigation, new ambient LED lighting with a five-colour selection, new length-adjustable front-row cushions, hands-free, foot-activated power liftgate and dual-pane sunroof; available Trail-Rated Off-Road Group on Overland models adds high-strength steel skid plates, electronic limited slip differential rear axle, 18-inch wheels and all-season tires
- Summit model has a starting Canadian MSRP of \$74,495 and is the peak of capability and luxury with standard premium amenities and features, including premium quilted Nappa leather seats, Absolute Oak wood and leather-wrapped multifunctional steering wheel, 16-way adjustable front-row seats with memory, lumbar and seat back massage, unique Summit-specific LED fog lamps and additional safety features, such as Active Driving Assist, drowsy driver detection and a 360-degree surround view camera are also standard
- Summit Reserve, with a starting Canadian MSRP of \$78,490, sets the benchmark for luxury with its hand-wrapped, quilted Palermo leather, open-pore Waxed Walnut wood, ventilated second-row seats, 21-inch wheels and standard premium amenities, including a premium 950-watt, 19-speaker McIntosh audio sound system
- Jeep Grand Cherokee L is equipped with more than 110 advanced safety and security features, including ample standard equipment along with available driver-assist systems and 360-degree surround view and night vision cameras
- Next-generation technologies include Uconnect 5 with wireless Apple CarPlay and Android Auto, windshield Head-up Display (HUD), digital rearview mirror, frameless digital cluster, rear seat monitoring camera and premium 950-watt, 19-speaker McIntosh audio sound system
- Jeep Wave™ customer service program comes to Canada and is standard with all 2021 Grand Cherokee L models and includes premium benefits such as worry-free maintenance, dedicated Jeep Wave call centre support, trip interruption and first-day loaner coverage and VIP treatment at select Jeep events.
- Jeep Grand Cherokee is the most awarded SUV ever with more than 700 global honours and industry accolades that span across four groundbreaking generations of the vehicle
- 2021 Jeep Grand Cherokee L will be built at the new Detroit Assembly Complex – Mack Plant, with vehicles scheduled to start arriving in Canadian dealerships in the second quarter of 2021

- The all-new Jeep Grand Cherokee two-row and its 4xe electrified version are scheduled to debut later this year

February 26, 2021, Windsor, Ontario - Jeep® Grand Cherokee L is expanding into the three-row full-size SUV segment with an all-new architecture, all-new interior, three Jeep 4x4 systems, the most advanced, high-tech safety and security features in its class and segment-leading advanced technologies. The all-new 2021 Jeep Grand Cherokee L ushers in an unmatched combination of even more legendary 4x4 capability, superior on-road refinement, plus premium styling and craftsmanship all at a starting Canadian manufacturer's suggested retail price (MSRP) of \$52,495.

"For 80 years, the Jeep brand has consistently introduced exceptional vehicles that set the benchmark for capability and authenticity, including the debut of the Jeep Grand Cherokee, which set the standard for what is expected of a modern SUV," said Jim Morrison, Vice President, Jeep Brand North America. "The all-new Grand Cherokee L continues to break barriers and push boundaries by ramping up its legendary 4x4 capability, adding a third row of seating for the first time, delivering even more premium on-road manners and providing the most safety and advanced technology features in its class."

The new Jeep Grand Cherokee L 4x4 has a starting Canadian MSRP of \$52,495 (prices exclude \$1,895 destination). The lineup consists of four models, Laredo, Limited, Overland and Summit:

2021 Model/Package	Starting Canadian MSRP
Grand Cherokee L Laredo	\$52,495 (4x4 V-6)
Grand Cherokee L Altitude	\$55,490 (4x4 V-6)
Grand Cherokee L Limited	\$59,995 (4x4 V-6)
Grand Cherokee L Overland	\$68,995 (4x4 V-6)
	\$72,490 (4x4 V-8)
Grand Cherokee L Summit	\$74,495 (4x4 V-6)
	\$77,990 (4x4 V-8)
Grand Cherokee L Summit Reserve	\$78,490 (4x4 V-6)
	\$81,985 (4x4 V-8)

**All prices exclude \$1,895 destination charge*

Built at the new Detroit Assembly Complex – Mack plant, the 2021 Jeep Grand Cherokee L is scheduled to start arriving in Jeep dealerships in the second quarter of 2021.

More legendary 4x4 capability and award-winning powertrains

The state-of-the-art 2021 Jeep Grand Cherokee L is designed inside and out to deliver unmatched capability and composed driving dynamics. Its renowned 4x4 systems (Quadra-Trac I, Quadra-Trac II and Quadra-Drive II), class-exclusive Jeep Quadra-Lift air suspension now with electronic adaptive damping and Selec-Terrain traction management system instill Grand Cherokee L with the Jeep brand's legendary 4x4 capability. Quadra-Drive II, with rear electronic limited slip-differential, is available on the Overland 4x4 model when equipped with the Off-Road Group and standard on Summit models. All three systems are equipped with an active transfer case to improve traction by moving torque to work with the wheel with the most grip. New for the 2021 Grand Cherokee L is a front axle disconnect, standard on all 4x4 trims.

The all-new 2021 Jeep Grand Cherokee L offers buyers a choice of two powerful, fuel-efficient and refined engines with proven performance for any driving situation. Standard across the lineup is the all-aluminum 3.6-litre Pentastar V-6 engine, rated at 293 horsepower and 260 lb.-ft. of torque. Buyers who want more power can opt for the award-winning 5.7-litre V-8, rated at 357 horsepower and 390 lb.-ft. of torque. The V-8 engine is optional on Overland and Summit models. Both award-winning engines are paired with the durable, robust TorqueFlite eight-speed automatic transmission, which enhances fuel economy and delivers crisp and smooth gear changes. Models equipped with the V-8 engine achieve class-leading towing capacity of up to 7,200 pounds (3,265 kg).

Most advanced, high-tech safety and security features in its class

Designed to maximize overall passenger safety, comfort and convenience, Jeep Grand Cherokee L packs a powerful

punch with next-generation features and technologies that make it stand out in the full-size SUV segment.

The all-new Grand Cherokee L delivers the most advanced, high-tech safety and security features in its class, with more than 110 innovative applications of technologies and ample standard content across the entire lineup.

The Grand Cherokee L introduces Active Driving Assist (Level 2) for hands-on-wheel and eyes-on-road automated driving using lane-centering with adaptive cruise control. Available on Overland and standard on Summit models, the system uses multiple sensors, including radars and cameras to dictate appropriate roads for the technology.

A night vision camera is also available on Overland and Summit models and uses thermographic technology to augment the reach of the Grand Cherokee L's headlamps. Infrared sensors search for the heat signatures of pedestrians and animals in the road ahead, at distances up to 200 metres (219 yards).

The most technologically equipped Jeep Grand Cherokee ever features significant next-generation innovations, including the most advanced Uconnect system ever, rear-seat monitoring camera, digital rearview mirror, full-colour windshield HUD, front-row wireless charging pad for devices and an available premium 950-watt, 19-speaker McIntosh audio system.

The all-new Uconnect 5 system, standard across the 2021 Grand Cherokee lineup, includes a 10.1-inch digital display and intuitive user experience. The system delivers operating speeds that are five times faster when compared to the previous generation. The advanced system also delivers customizable user profiles, standard wireless Apple CarPlay and Android Auto and Alexa "Home to Car" functionality.

The new Grand Cherokee L also gives owners a bird's-eye view of precious cargo, courtesy of the rear-seat monitoring camera available on Limited, Overland and Summit models. The system projects a best-in-class, high-definition image and delivers several segment-exclusive features, including a clear view of second-row, rear-facing child seat occupants, a split-view display and a unique "zoom-to-seat" function.

A digital rearview camera system, optional on Limited models and above, replaces the conventional rearview mirror with a 23.3 centimetre-wide (9.2-inch) LCD that shows real-time video from a rear-facing camera. Unlike a conventional rearview mirror, the new digital camera system offers a view that is unobstructed by the D-pillars or rear seats. When not in use as a display, the screen reverts back to a reflective mirror.

Additionally, a windshield HUD is available on Overland models and above. The full-colour display is configurable up to 25 cm (10 inches) and provides key vehicle information to the driver, including speed, speed limit, navigation and driver assist systems (when equipped).

Debuting first on the 2021 Jeep Grand Cherokee L is a premium McIntosh audio system. Available on Overland and Summit models and standard with the Summit Reserve Package, the advanced, high-performance audio system features a 17-channel amplifier with a maximum output of 950 watts and 19 speakers, including a 25 cm (10-inch) subwoofer, to envelope vehicle occupants in high-definition sound.

2021 Grand Cherokee L Laredo

The Grand Cherokee Laredo 4x4 boasts an all-new design and comes loaded with standard features at a starting Canadian MSRP of \$52,495.

The Laredo model features a new, exquisitely crafted and spacious interior that highlights premium materials and next-generation technologies, including a new, 26 cm (10.25 inch) frameless digital cluster with nearly two dozen menus for driver personalization.

Laredo also features the new five times faster Uconnect 5 system with a 10.1-inch digital display and an 8.4-inch high-definition touchscreen. The system offers a customizable, one-touch home screen, five user profiles and standard wireless Apple CarPlay and Android Auto. To enhance connectivity, the Grand Cherokee L delivers a class-leading total of 12 USB Type A and new Type C ports for all three rows. Type C ports allow devices to charge up to four times faster. Third-row single USB ports are available on Laredo and standard on Limited and up.

Designed to maximize overall passenger comfort, all Grand Cherokee L models, including Laredo, deliver unsurpassed third-row capacity, increased cargo volume and class-leading legroom in the second row. Inside, premium seating includes room for six or seven passengers. The second row comes with standard "tip and slide" bucket seats that can be easily moved to create expansive passage to the third row.

Laredo comes equipped with ample standard safety and security features, including Full-speed Collision Warning with active brake and pedestrian/cyclist detection, Rear Cross Path detection, adaptive cruise control, active lane management, lane departure warning, advanced brake assist, Blind-spot Monitoring, rear park assist sensors and more. Additional standard safety features include passive entry, automatic headlamps, daytime running LED reflector headlamps and LED taillamps.

The Laredo model is powered by the standard 3.6-litre Pentastar V-6 engine with 290 horsepower and 257 lb.-ft. of torque paired with the standard TorqueFlite eight-speed transmission. It also features standard 18-inch aluminum wheels, heated fold-away mirrors with heating element and blind spot indicator, roof rails, cloth heated front seats with power eight-way driver and manual front-passenger with driver lumbar adjuster, automatic dual-zone automatic temperature controls, all-new leather-wrapped heated steering wheel with audio control and paddle shifters and integrated voice command with Bluetooth.

All Jeep Grand Cherokee L models come standard with the Jeep Wave premium owner loyalty program. Launching in Canada with Jeep Grand Cherokee L, complimentary membership benefits include three years of worry-free maintenance at Jeep dealerships, including up to six oil changes and tire rotations, dedicated Jeep Wave call centre support, trip interruption and first-day loaner coverage and VIP treatment at select Jeep events.

The Laredo model's available Altitude Package has a starting Canadian MSRP of \$55,490 and adds distinct Black Gloss appearance details, including 20-inch Gloss Black aluminum wheels, Gloss Black exterior accents and badging, roof rails and a unique seven-slot grille. Other functional features include remote start, wireless charging pad, power liftgate with adjustable height, rain-sensing wipers, 115-volt power outlet and third-row USB ports.

2021 Grand Cherokee L Limited

The Jeep Grand Cherokee L Limited 4x4 model builds on the many standard features of the Laredo. It starts at a Canadian MSRP of \$59,995 and powered by the Pentastar V-6.

The Limited model builds on Laredo's upscale design and modern amenities, while taking capability and comfort and to the next level. Limited 4x4 comes standard with the class-leading Selec-Terrain traction management system, which offers five available terrain modes (Auto, Sport, Rock, Snow, Mud/Sand) to provide optimized calibrations for any given driving scenario.

The Limited model's sophisticated interior features standard Capri leather seats and several premium convenience features, including power eight-way driver seat with memory, and power four-way driver/front-passenger lumbar adjuster with memory and heated steering wheel.

Heated seats in the first two rows with three-level configurable controls for personalized passenger comfort are standard on Limited, Overland and Summit models. The Limited model also features a six-speaker sound system with active noise cancellation and single-colour ambient interior lighting for the instrument panel and front and rear doors.

Standard exterior features include automatic high-beam headlamps, new premium LED fog lamps, power Gloss Black mirrors with a heating element, blind spot indicator, memory and supplemental turn signals.

Other standard convenient features include remote start, universal garage door opener and a new adjustable height power liftgate.

2021 Grand Cherokee L Overland

Built for both on- and off-road adventures, the Grand Cherokee L Overland 4x4 model has a starting Canadian MSRP of \$68,995 with Quadra-Lift air suspension and the Pentastar V-6. When equipped with the optional V-8 engine that delivers 357 horsepower and 390 lb.-ft. of torque and a class-leading towing capacity of up to 7,200 pounds (3,265 kg), the starting Canadian MSRP is \$72,490.

The Overland 4x4 is equipped with Jeep's Quadra-Trac II system, which adjusts torque distribution and will continue to reactively make corrections if tire slip occurs. When wheel slippage is detected, as much as 100 percent of available torque is instantly routed to the axle with the most traction.

Premium interior comfort and convenient amenities are prominent with Overland models. Enhancements include Nappa leather seats and door panels, ventilated front seats, leather-stitched instrument panel, upgraded Uconnect 5 system with navigation and premium Alpine audio system with nine speakers, subwoofer and 506-watt amplifier. Also standard is new ambient lighting with a five-colour selection that casts an inviting glow along the entire instrument panel, as well as the front and rear doors for a personalized sensory experience.

Standard exterior upgrades for Overland include 20-inch aluminum wheels with Black Noise pockets, a new, unique Overland appearance, chrome front tow hooks, Gloss Black roof rack with Bright Stainless insert, rain-sensing windshield wipers, trailer tow package, approach-lit door handles and rearview mirror puddle lighting, power-folding multifunctional Gloss Black mirrors with Bright Chrome insert, auto-tilt down in reverse, auto-dimming glass on driver's side and courtesy lighting, windshield wiper deicer and passive entry on all doors and liftgate. A Gloss Black roof is available for the first time on Overland models.

Length-adjustable cushions for the front row are introduced on Overland models. A power-folding third-row bench seat is also standard. Overland also features a new electronic remote release in the rear cargo area to quickly and effortlessly fold the second row flat.

Other unique features standard on Overland include a hands-free, foot-activated adjustable power liftgate and CommandView dual-pane sunroof with a power sunshade.

When equipped with the available Off-Road Group, the Trail Rated Overland 4x4 model adds the Quadra-Drive II system, high-strength steel skid plates, electronic limited slip differential rear axle, 18-inch aluminum wheels and rugged, all-season performance tires. The Selec-Terrain system and Hill-descent Control, which works both in forward and reverse, are standard on Overland.

2021 Grand Cherokee L Summit

For customers seeking the peak of capability and luxury in an SUV, with premium materials and class-exclusive features, the state-of-the-art Grand Cherokee L Summit 4x4 starts at a Canadian MSRP of 74,495. Grand Cherokee L introduces a new premium package, Summit Reserve, with a starting Canadian MSRP of \$78,490.

The Summit is packed with premium appointments, such as Nappa leather seats with quilted seat bolsters and perforated seat inserts on all three rows, Absolute Oak wood and leather-wrapped multifunctional steering wheel and Berber floor mats. First-row seats with new power 16-way adjustable position with memory and lumbar are standard on Summit. Also new and offered for the first time on Grand Cherokee is front-row seat massage that includes five customizable profiles with three levels of pressure intensity.

Passenger comfort is elevated in Summit models with new four-zone automatic temperature control, which has the capability to select different fan levels and modes for individual passengers in the first and second rows. The system also offers four different temperature settings. Additional interior touches unique to the Summit model include a new, second-row floor console with two illuminated cup holders and two-tier armrest with additional storage for mobile devices.

Exterior touches include 20-inch polished cast-aluminum wheels in Mid-Gloss Clear, unique Summit-specific LED fog lamps, power-folding multifunction Gloss Black mirrors with a Platinum insert and new 360-degree camera, illuminated door sills and roof rack with Fine Silver rails and Gloss Black insert.

Additional standard safety features on Summit models include:

- Active Driving Assist
- Drowsy Driver Detection

- Intersection Collision Assist
- Traffic Sign Recognition
- 360-degree Surround View Camera with front and rear lens washers
- Parallel and Perpendicular Park Assist

The new Summit Reserve Package sets the benchmark for luxury in the full-size SUV segment. Premium hand-wrapped, quilted Palermo leather, ventilated front and second-row seats, memory and massage front seats and choice of a new Tupelo interior colour add distinguishable details to the model. Also unique to the Summit Reserve Package is genuine open-pore Waxed Walnut wood and premium, wrapped, suede-like fabric on the A-pillars and headliner. For the first time on Grand Cherokee, 21-inch wheels come standard with the Summit Reserve Package. Also standard is superior audio delivered through the 950-watt, 19-speaker McIntosh audio sound system.
