Dodge Announces Three New Vehicle Theft-protection Measures

August 13, 2021, Auburn Hills, Mich. - Dodge is announcing a series of three new security solutions to help protect Dodge Challenger and Charger owners against criminal theft.

The first is an "Enhanced Security Valet Mode" that uses a four-digit code in the radio to limit engine power output to less than 3 horsepower, preventing fast getaways.

Beginning Monday, August 16, the system will be available on request at Dodge dealers as a flash software upgrade, free of charge for 2021 model year Challengers and Chargers with 392-cubic-inch HEMI® or supercharged Hellcat HEMI engines.

The second feature is a "Key Programming Lockdown" that prevents thieves from programming new key fobs after breaking into a vehicle. The Lockdown feature rollout begins in Q1 2022. When fully implemented, Key Programming Lockdown will be available for 2015-to-current model year Challengers and Chargers with any engine option.

The third solution is a new "Intrusion Module" that activates vehicle alarm systems if it senses glass breakage or vehicle movement. The Intrusion Module will be available on all 2022 model year Dodge Chargers and Challengers.

Dodge//SRT

For more than 100 years, the Dodge brand has carried on the spirit of brothers John and Horace Dodge. Their influence continues today as Dodge shifts into high gear with a lineup that delivers unrivaled performance in each of the segments in which the brand competes while moving forward to a future that includes electrified muscle in the form of the next-generation, all-new Dodge Charger.

The next-generation Dodge Charger electrifies a legend, with the Charger retaining its title as the world's quickest and most powerful muscle car led by the all-new, all-electric 2024 Dodge Charger Daytona Scat Pack. The all-new Dodge Charger will also offer performance choices via multi-energy powertrain options including the 550-horsepower Dodge Charger SIXPACK H.O., powered by the 3.0L Twin Turbo Hurricane High Output engine.

Dodge also keeps its foot on the gas as a pure performance brand with the 710-horsepower Dodge Durango SRT Hellcat, the most powerful SUV ever, and best-in-class standard performance in the compact utility vehicle segment with the Dodge Hornet.

Dodge is part of the portfolio of brands offered by leading global automaker and mobility provider Stellantis. For more information regarding Stellantis (NYSE: STLA), please visit www.stellantis.com.
