### **Stellantis in Canada – Vaccine Policy**

October 14, 2021, Windsor, Ontario - Since vaccines have become available, Stellantis has continued to strongly advocate for our employees to get vaccinated as the best way to protect against the transmission and reduce the severity of the illnesses associated with COVID-19. In the best interest of employee health and safety, effective December 17, 2021, the company will require all employees, contractors, service provider workers and visitors at Stellantis sites in Canada to be fully vaccinated against COVID-19 and to provide proof of vaccination status prior to entering a Stellantis facility, as recommended by the Ministry of Health and Provincial Health Officer.
