September 7, 2022, Windsor, Ontario - A pair of modern-day "Swingers" with a retro-themed appearance are joining the Dodge brand's "Last Call." The special-edition 2023 Dodge Challenger Scat Pack Swinger and 2023 Dodge Charger Scat Pack Swinger represent the third and fourth of seven special-edition Dodge "Last Call" models and give a nod back to the unique style of the Dodge brand's "swinging" muscle car lineup of the late 1960s and early 1970s.

The original Dodge Dart Swinger was a member of the Dodge "Scat Pack" club, packing formidable horsepower into a compact package, and included "groovy" options, such as green-on-green interior/exterior colour combinations, gold colour accents and wood panel interior touches. The 2023 Dodge Challenger Scat Pack Swinger and 2023 Dodge Charger Scat Pack Swinger modern-day special-edition models reach back to that past for inspiration, delivering a throwback exterior and interior appearance.

The 2023 Dodge Challenger Scat Pack Swinger and 2023 Dodge Charger Scat Pack Swinger follow recently announced Dodge Challenger Shakedown and Dodge Charger Super Bee models. Dodge "Last Call" special-edition models celebrate the Dodge Challenger and Dodge Charger, which in their current form are coming to an end.

Six special-edition Challenger and Charger models will be revealed through September 21, 2022. The seventh and final 2023 Dodge model — the very last of its kind — will be revealed at the 2022 SEMA Show in Las Vegas, scheduled for Nov. 1-4, 2022.

“The name says it all – the originals had a unique, fun character, and that’s the same reaction we’re hoping for with our 2023 Dodge Challenger and Charger R/T Scat Pack Swinger models,” said Tim Kuniskis, Dodge brand chief executive officer – Stellantis. “Dodge Swinger models have always held a unique spot in the Dodge muscle-car pantheon, and these modern-day models bring that fun back to life.”

Only 1,000 each of the 2023 Dodge Challenger Scat Pack Swinger and 2023 Dodge Charger Scat Pack Swinger will be produced, both as Widebody models. Those seeking to recreate a classic green-on-green Swinger look can choose from F8 Green and Sublime Green exterior colour options, with a White Knuckle option is also available.

“Last Call” Highlights

In addition to the seven “Last Call” special-edition models, Dodge brand will also celebrate its 2023 model lineup by bringing back three beloved heritage exterior colours: B5 Blue, Plum Crazy purple and Sublime green. One popular modern colour, Destroyer Grey, also returns to the fold. Charger and Challenger will each offer 14 total 2023 exterior colour options. 2023 Charger and Challenger R/T models will also feature new “345” fender badging, a callout to the 345-cubic-inch HEMI® engine under the hood.

All 2023 Dodge Charger and Challenger models will also carry a special commemorative “Last Call” underhood plaque, making every 2023 Charger and Challenger especially desirable. The brushed aluminum underhood “Last

Call” plaque features the vehicle name and a vehicle silhouette, as well as “Designed in Auburn Hills” and “Assembled in Brampton” to proclaim each vehicle’s origin.

The brand is also expanding the reach of its popular SRT Jailbreak models, which were introduced earlier this year for the Dodge Charger and Challenger SRT Hellcat Redeye Widebody, unlocking colour combination ordering restrictions and exclusive content. For 2023 model year, Jailbreak models will also be available for the 717-horsepower Challenger and Charger SRT Hellcat, providing even more owners the option of building their own one-of-a-kind muscle car.

Ordering information for the 2023 Dodge Charger and Challenger will be announced fall 2022.

Dodge//SRT

For more than 100 years, the Dodge brand has carried on the spirit of brothers John and Horace Dodge. Their influence continues today as Dodge shifts into high gear with a lineup that delivers unrivaled performance in each of the segments where they compete.

Dodge drives forward as a pure performance brand, offering SRT Hellcat versions of the Dodge Challenger, Dodge Charger and Dodge Durango, as well as an R/T plug-in hybrid electric vehicle (PHEV) version of the all-new 2023 Dodge Hornet, representing the brand’s first-ever electrified performance vehicle. Dodge delivers the drag-strip dominating 807-horsepower Dodge Challenger SRT Super Stock; the 797-horsepower Dodge Charger SRT Redeye, the most powerful and fastest mass-produced sedan in the world; and the 710-horsepower Dodge Durango SRT Hellcat, the most powerful SUV ever; and best-in-class standard performance in the compact utility vehicle segment with the Dodge Hornet. Combined, these four muscle vehicles make Dodge the industry’s most powerful brand, offering more horsepower than any other North American brand across its entire lineup.

In 2022, the Dodge brand ranked No. 1 in the J.D. Power APEAL Study (mass market), making it the only domestic brand ever to do so three years in a row. In 2020, Dodge was named the “#1 Brand in Initial Quality,” making it the first domestic brand ever to rank No. 1 in the J.D. Power Initial Quality Study (IQS).

Dodge is part of the portfolio of brands offered by leading global automaker and mobility provider Stellantis. For more information regarding Stellantis (NYSE: STLA), please visit www.stellantis.com.
