November 18, 2022, Auburn Hills, Mich. - For consumers who can't travel to the 2022 LA Auto Show at the Los Angeles Convention Center, Stellantis has created an online, virtual experience providing an alternative approach for shoppers to see and learn about the newest vehicles from Alfa Romeo, Chrysler, Dodge, Fiat, Jeep® and Ram Truck.

The virtual auto show will highlight the company's newest technologies via highly detailed interactive product tours. Users can venture through a computer-generated, visually immersive experience with video explanations. Users will experience mobile device enhancement for an improved user experience, two additional augmented reality modules for Dodge, Jeep, and several vehicle models and packages.

The tour gives users a deeper understanding of Stellantis' products and technologies through a 3D experience, which includes the full lineup of vehicles. The user-controlled 3D environment allows viewing from various angles on vehicles, such as the new [Grand Wagoneer](#) and [Alfa Romeo Giulia](#) along with the all-new [Jeep Grand Cherokee 4xe](#) plug-in hybrid.
