Statement on Michigan Senator Debbie Stabenow's Decision to Step Down at End of Term

January 5, 2023, Auburn Hills, Mich. - Stellantis congratulates Senator Stabenow, who has worked tirelessly on behalf of her constituents in Michigan, including the more than 40,000 Stellantis employees, retirees and their families. She has been a strong supporter and a good friend through the good times and the challenging times that this industry and her home state have faced during her 25 years in Congress. Most recently, she was instrumental in ensuring that market building incentives were included in the Inflation Reduction Act to help accelerate the industry's transition to electric vehicles during this transformational time. We know she will not stop fighting for Michigan and we look forward to continuing to work closely with her in the 118th Congress.
