Electronic Stability Program (ESP)

Available in 2500 models. ESP enhances driver control and helps maintain directional stability under all conditions. It provides the greatest benefit in critical driving situations, such as turns, and is especially valuable when driving on slippery surface conditions, such as snow, ice or gravel. If there's a discernible difference between what the driver asks through the steering wheel and the vehicle's path, ESP will apply selective braking and throttle input to put the vehicle back onto the driver's intended path.

Passenger Van

Dodge Sprinter passenger van has seating for up to 10 people. Similar to the cargo van, its full-size rear doors open to a class-leading 270 degrees. It boasts a best-in-class low side step-in height of 17 inches.
