

2010 Dodge Dakota: Bold Styling, Power, Versatility and Capability for Any Lifestyle

- New front-shock modules with springs and rear-spring assemblies for improved ride and handling
- Bright White replaces Stone White Clear Coat exterior color
- Flame Red replaces Detonator Yellow exterior color
- Mango Tango replaces Sunburst Orange exterior color

August 31, 2009, Auburn Hills, Mich. -

Designed for customers with active lifestyles, the 2010 Dodge Dakota may be equipped for work and play.

The 2010 Dodge Dakota features best-in-class towing of up to 7,250 pounds, the greatest interior room of any mid-size truck with 30 cubic-feet of interior space in Extended Cab models and 37.1 cubic feet in Crew Cabs, and the largest and longest standard cargo bed in its class: 6-foot 6-inches in the Extended Cab.

For 2010, the Dodge Dakota features new Tokico shock modules and Arvin springs for improved ride and handling. Other new features include three new exterior colors: Bright White, Flame Red and Mango Tango.

The 2010 Dodge Dakota is offered in two body styles – Extended Cab and Crew Cab. Trim levels on the Extended Cab include ST and Big Horn (Lone Star in Texas only). Available Crew Cab trim levels include ST, Big Horn (Lone Star in Texas), TRX4 and Laramie.

The 2010 Dodge Dakota comes standard with a 3.7-liter Magnum® V-6 engine that generates 210 horsepower (157 kW) and 235 lb.-ft. (319 N•m) of torque.

The available 4.7-liter V-8 incorporates two spark plugs per cylinder (the only Chrysler engine to do so, other than the 5.7-liter HEMI®), which includes increased compression ratio, improved cylinder-head port flow and combustion system. The result is 302 horsepower (225 kW) and 329 lb.-ft. (446 N•m) of torque. The 4.7-liter V-8 is also equipped with Electronic Throttle Control and is E85 compatible.

The 2010 Dodge Dakota's 3.7-liter V-6 is backed by a standard four-speed automatic with overdrive, while a five-speed automatic is standard on V-8-equipped models.

The 2010 Dodge Dakota features a ladder-type frame, with hydroformed main rails fully boxed for strength and rigidity. All 2010 Dodge Dakotas feature an independent front suspension with coil-over shock absorbers.

Dodge Dakota AT A GLANCE

Distinctive Styling

- Offered in two body styles and four trim levels, Dakota's exterior includes a boldly styled hood, grille, front fascia, fenders and headlamps. Dakota also offers an available rear spoiler, cargo-box top protection, and utility rail system

Refined Performance

- An available 4.7L V-8 engine produces 302 horsepower (225 kW) and 329 lb.-ft. (446 N•m) of torque, with better fuel economy and increased refinement over previous engines
 - Capable of operating on E85 ethanol fuel, making the Dodge Dakota equipped with this engine a Flexible Fuel Vehicle (FFV)
 - Best-in-class towing capability up to 7,250 pounds

- Standard 3.7L Magnum® V-6 engine produces 210 horsepower (157 kW) and 235 lb.-ft. (319 N•m) of torque

Versatility

- Dakota continues to offer best-in-class room (30 cubic feet of interior space in Extended Cab models and 37.1 cubic feet for Crew Cab), and class-exclusive available Full-Swing rear access doors (open nearly 170 degrees) on the Extended Cab
- Clever under-seat storage system in the Dakota Crew Cab – a first for Dodge Dakota – includes the unique Crate 'N Go™ collapsible and removable cargo management system
- Additional storage options are provided throughout the interior including:
 - Storage bin above the glove box
 - Center console incorporating cup holders with modular inserts with a pull-out bin specifically designed to hold electronics such as an MP3 player (which may be plugged into Dakota's audio systems) or cell phone (Uconnect™ Phone available)
- Available built-in utility rails make cargo box tie-downs infinitely adjustable, and the dual-position tailgate may be secured in a mid-position, which provides support for extra-wide or extra-long cargo
- Largest and longest standard cargo bed in its class: 6-foot 6-inches in the Extended Cab

PRODUCT CHRONOLOGY

2009 MODEL YEAR

- Big Horn/Lone Star models replace SXT
- SLT, Sport and TRX 4x2 trim levels dropped for 2009
- New exterior colors: Stone White Clear Coat, Deep Water Blue Pearl Coat, Austin Tan Pearl Coat
- Crate 'N Go™ standard on Big Horn/Lone Star models
- 4.7-liter V-8 engine available on Big Horn/Lone Star models
- 18-inch aluminum wheels standard on Laramie model
- Tilt-steering wheel standard on ST model
- Premium cloth bucket seats standard on Laramie
- Premium bolstered bucket seats standard on TRX4

2008 MODEL YEAR

- Newly styled hood, grille, front fascia, rear spoiler, fenders and headlamps
- New 4.7-liter V-8 engine producing 302 horsepower (225 kW) and 329 lb.-ft. (446 N•m) of torque, E85 compatible; more power and torque with better fuel economy and more refinement than previous 4.7-liter V-8s
- Rear tailgate-mounted spoiler
- Protective surface on top of cargo box sides
- Built-in cargo-box utility rails

- 3.7-liter engine upgraded to include Electronic Throttle Control (ETC) and Exhaust Gas Recirculation

(EGR) capability

- 4.7-liter engine becomes flexible-fuel capable (E85)
- Low current, tip-start ignition
- 18-inch chrome-clad wheel becomes available on SLT and Laramie models
- 18-inch black painted aluminum wheels offered as stand-alone option
- Segment-first Remote Start becomes stand-alone option on SLT and Laramie models
- Three-blink lane change feature enables one-touch capability
- Passenger seat belt reminder
- 18-inch painted aluminum wheel is packaged with Sport Appearance Group, which is optional on SLT and Laramie models
- Chrome accent package available on SLT and Laramie models includes chromed tubular side steps, fuel filler door, hood deflector and exhaust tip

2006 MODEL YEAR

FOUR NEW 2006 OFFERINGS

- **TRX**— The TRX equipment package is available on Dakota ST, SLT and Laramie 4x2 models, in both Club and Quad Cab configurations. TRX-equipped vehicles include unique five-spoke/five-lug 16-inch aluminum wheels and aggressive Goodyear Wrangler off-road tires; tow hooks; limited-slip differential; and TRX decal on cargo box.
- **TRX4 Off-Road**— The TRX4 off-road equipment package (available mid-2006 MY) is available on Dakota SLT and Laramie 4x4 models, in both Club and Quad Cab configurations. TRX4-equipped vehicles include painted shocks; unique, five-spoke/five-lug 16-inch aluminum wheels and aggressive BF Goodrich off-road tires; increased ride height of one inch; limited-slip differential; heavy-duty service package; skid plates; tow hooks; specific TRX4 Off-Road cargo box decal; and slush mats.
- **R/T**— The Limited Edition R/T model is based on the Dakota SLT equipped with the “2TD” customer preferred option (CPOS) package and is available in Club or Quad Cab configurations. Dakota R/T content includes 4.7-liter High Output (HO) engine; 17-inch five-spoke/five-lug chrome-clad aluminum wheels; hood scoop; Sport Appearance Package (in Red Flame or Black only); body-color grille surround; chrome exhaust tip; cargo box decals; R/T headrest; R/T instrument cluster graphic; and Satin Silver center stack/door remotes.
- **Night Runner**— The Limited Edition Night Runner model is based on the Dakota SLT and is available in Club or Quad Cab configurations. The Night Runner model is equipped with black chromed grille surround; fascia insert and 17-inch Black Chrome wheels; sport appearance package; cargo box decal; Night Runner headrests with logo stitching; Night Runner instrument cluster graphic; and black center stack/door remotes.
- Optional SoundBox™ from Alpine® (available on Club Cab only) offers powerful 508-watt sound system and 10-inch subwoofer within styled, translucent “box” positioned between rear seats
- Premium audio system—276 watts—optional Alpine speaker system
- Audio Auxiliary Jack enables playback of personal audio devices is standard equipment and added to standard audio system
- Center stack appliqué on SLT models changes from wood finish (Sycamore) to GH metal
- SIRIUS Satellite Radio digital audio system standard on Laramie models
- Variable Line Pressure (VLP) feature added to four-speed automatic transmission (mated with 3.7-liter V-6 engine), resulting in improved fuel economy and smoother shifts
- 16-inch styled steel wheel replaces 16-inch full-face wheel
- 16-inch cast-aluminum wheel available as option
- P265/65R17 (17-inch) On/Off Road tire replaces P275/60R17 all-season tire on 4x2 models
- Rear access doors on Club Cab configured to open nearly 180-degrees—a first-in-segment application
- Optional sun roof systems offered on Quad Cab models
- New exterior color offerings are Inferno Red Crystal Pearl and Light Khaki

2005 MODEL YEAR

- Optional 4.7-liter High Output V-8 engine brings 260 horsepower
- Six-speed manual transmission

- Quieter air induction system
- Coil-over-shock-absorber independent front suspension
- Stronger, more durable hydroformed frame
- Outstanding brake system stopping distance, fade resistance and pedal feel with new disc/drum brake system that weighs 15 pounds (6.8 kg) less than four-wheel disc brakes of comparable performance
- Chrome-clad 17-inch wheels—optional on SLT and Laramie
- Restyled body
- Rear access doors on Club Cab
- Automatic headlamps standard equipment on Laramie
- Roll-formed ultra-high-strength steel windshield header
- Ditch weld seam (where the roof meets the aperture) provides a finished appearance without a molding
- Freshened interior
- Cloth and leather bucket seats available with carbon fiber heating elements
- Rear-door map pockets in Club Cab and Quad Cab rear door-trim panels
- Optional integral six-disc CD changer capable of playing MP3 discs
- Powerful audio system—276 watts—optional Infinity® speaker system
- Optional Satellite Digital Audio radio system
- Optional UConnect® Hands-free Communication System
- Controller Area Network (CAN) protocol intra-vehicle communications network
- Multi-stage driver and front-passenger air bags with weight-based Occupant Classification System (OCS) for controlling front-passenger air bag deployment
- Available side-curtain air bags for front and rear seats
- Shoulder belts in all rear seating positions, Club Cab and Quad Cab (shoulder belt in center rear seating position of Quad Cab)
- Head restraints in rear outboard seating positions that comply with proposed regulation
- Taller front head restraints that comply with proposed regulation

- Rack-and-pinion steering on four-wheel-drive models
- Early compliance with 2003 model-year head impact safety standard
- Child seat tether anchors in cab back panel

1999 MODEL YEAR

- NV1500 five-speed manual transmission used with 2.5-liter I-4 engine

1998 MODEL YEAR

- R/T Group with 5.9-liter Magnum V-8 engine (250 hp and 345 lb.-ft. torque) (April 1998 introduction)
- Next-generation driver and front-passenger air bags (running change)(a)
- Passenger air bag on/off switch (running change)(b)

1997 MODEL YEAR

- All-new body and chassis
- Passenger air bag

1994 MODEL YEAR

- Driver air bag

1993 MODEL YEAR

- Four-wheel anti-lock brakes available

1991 MODEL YEAR

- Club Cab available with four-wheel drive

1990 MODEL YEAR

- V-8 engine introduced
- Club Cab body introduced (two-wheel drive and 6.5-ft. box only)

1987 MODEL YEAR

- Four-wheel-drive model initial introduction

1986 MODEL YEAR

- Rear-wheel-drive model initial introduction spring 1986 as a 1987 model

(a) Certified to federal regulations that allow less forceful air bags. Always use seat belts. Remember, a back seat is the safest place for children.

(b) Important, always remove key. Rearward-facing child seats can be used in the front seat only with the passenger air bag turned off.
