## **2010 Avenger Offers Unmistakable Dodge Design in the Mid-Size Sedan Segment**

August 31, 2009, Auburn Hills, Mich. -

The 2010 Dodge Avenger combines bold Dodge styling with innovative interior features, high levels of safety and reliability, exhilarating performance and 30-mpg highway fuel efficiency—all at a great value.

There's no mistaking Dodge brand's heritage in Avenger's aggressive exterior lines. With traits from the legendary Dodge Charger, the 2010 Dodge Avenger integrates the signature crosshair grille, muscular rear shoulders, large wheels and tires, rear spoiler and chrome-tipped dual exhausts to communicate the performance capability of the Dodge brand's mid-size sedan.

Matching the 2010 Dodge Avenger's aggressive looks is an available 3.5-liter 24-valve High-Output V-6 engine coupled with a six-speed automatic transaxle producing 235 horsepower (175 kW), 232 lb.-ft. (315 N•m) of torque and 27 mpg on the highway. Dodge Avenger's six-speed automatic transmission with Auto Stick provides a quicker standing-start, while a robust differential with increased torque capacity enhances launch performance and lower overall top-gear ratio provide a quiet ride with improved fuel economy at highway speeds.

Many unique features set the 2010 Dodge Avenger apart in the competitive mid-size segment:

- Innovative Uconnect™ Navigation, Uconnect Phone and SIRIUS Satellite Radio
- Chill Zone™—a storage compartment in the top of the instrument panel that holds up to four, 12-ounce beverage cans. Depending on ambient temperature and air conditioning settings, the bin keeps beverages cool when the vehicle is on
- A premium headliner that includes LED interior lighting with high-focus white lights that provide directional lighting in front and rear seats

### **Dodge Avenger AT A GLANCE**

#### **Bold, aggressive Dodge styling makes a powerful statement in the mid-size segment at an affordable price**

- Brings Dodge Charger heritage to the mid-size segment
- Signature Dodge crosshair grille
- Muscular rear shoulders, sleek rear spoiler and modern, yet menacing quad headlamps

#### **Segment-leading performance**

- Dodge Avenger rivals the quickest mid-size sedans in the segment based on 0-60 mph tests. Dodge Avenger offers class-leading performance with an available 3.5-liter engine coupled with a six-speed automatic transaxle producing 235 horsepower and 232 lb.-ft. of torque and achieves 16 mpg in the city and 27 mpg on the highway
- Auto Stick provides a fun-to-drive experience with the 3.5-liter engine
- The 2.4-liter I-4 World Engine produces 173 horsepower (129 kW) and 166 lb.-ft. (225 N•m) and achieves 21 mpg in the city and 30 mpg on the highway

#### **Class-leading safety features**

- Standard front-seat-mounted (thorax) air bags
- Standard side-curtain air bags

- Standard advanced multi-stage front air bags
- Driver and front-passenger active head restraints
- Available Electronic Stability Control (ESC) with traction control
- Four-wheel Anti-lock Disc Brakes (ABS)

### **Class-leading innovations**

- Dodge Avenger is loaded with features including Chill Zone™ upper instrument panel bin cooler, Uconnect Phone, Uconnect Navigation, SIRIUS Satellite Radio and aimable LED lights in front and rear seats
